#### A few Key Product Points:

- **Poly Rib Seprentine Belts:** Belts feature a W rib profile, which was engineered to conform to high mileage, worn or misaligned drives to help eliminate noisy belt conditions. It delivers more than just OE required quality; it delivers the solution for troublesome drive problems.
- **NO SLACK Automatic Belt Tensioner:** Flat spring design engineered to provide less operating range variations in tension. Reduces the risk of premature accessory bearing failure when a new belt is installed and lessens the risk of belt noise or slippage after the belt begins to stretch and wear.
- **Water Pump Kits:** Convenient solution when replacing all the major components in a timing belt job.
- **Hydraulic Timing Belt Actuator:** Designed to absorb changes in the loss of timing belt tension. Maintains constant tension during crankshaft revolution which reduces noise, prevents belt flapping and ensures transmission efficiency throughout the entire service life of the belt.
- **DAYCO App:** Download the DAYCO app on your smart phone or tablet. This app will show you all the DAYCO parts for a vehicle, routing diagrams and helpful installation videos. Just scan the VIN # or License Plate with the camera.
- **Made in the USA:** Over 80% of DAYCO products sold in North America is made in the USA, look for the American Flag on the box.
- **Assurance:** As with all products Rowerdink, Inc. sells you have our assurance that we will stand behind the DAYCO brand and our customers.
